

# STICKY MAT

A sticky mat is a mat with an adhesive surface that is placed at the entrances to certain workplaces to remove contaminants from the bottoms of footwear and wheeled carts. Sticky mats are typically used in cleanrooms. Their purpose is to prevent dust and contaminants from entering the area. Sticky mats are made of a stack of adhesive plastic film layers that are periodically peeled off and discarded.

## Specification:

Brand : Knightclean

Color : Blue

Size : 24" x 36"

Packaging : 8 mats /case

30 sheets / mat

Thickness : 1.22mm +/- 0.04

Tensile Strength H:  $\geq 12$ Mpa

Tensile Strength V :  $\geq 15$ Mpa

Elongation :  $\geq 150\%$

Material : PE + Polyacrylate glue

**Application :** Semiconductor, Hard Disk Drive Optoelectronics  
Food Industry, Medical and Solar Cell.

**GreenPhils Inc.**
