## ESD MICA SHEET

**The high temperature fusion of anti-static material can prevent dust electro static damage. Application: Anti-static work place , anti-static desk panel, anti-static wall (clean room), laboratory, hospital X-ray room etc.**

### Features:

- . Stable electro static discharge, recyclable.
- . Tiny affect by temperature, humidity
- . Bottom apply special treatment technology, easy to paste.

## SPECIFICATIONS

Type	ESD MICA SHEET
Color	Grey (top) black (bottom)
Material	resins of ABS, HIPS, EPS
Electro decay lifetime	No less than 10 years
Static attenuation	$\leq 1.6s$ for 5000V~500V
Volume resistance	$\leq 10E8 \Omega$
Surface resistance	10E6~10E9 $\Omega$ (top) 10E3~10E5 $\Omega$ (bottom)
Size	1.2mx10mx0.8mm per roll

Package	1 roll per ctn
Weight	13kg/ ctn about 1kg per square meter
